

## IMPRESS 100T

### 2-Way Compact Wall Speaker

#### DESCRIPTION :

The Ahuja IMPRESS 100T is a 100W 2-way compact wall speaker with 8" LF woofer. 100W power handling provides for 112dB maximum SPL.

It uses a long throw 20.32cm (8") woofer housed in a ABS plastic enclosure for extended LF performance down to 50hz.

#### FEATURES :

- Designed with superior aesthetics and engineered for unmatched sound reproduction.
- Long throw 20.32cm (8") woofer housed in a ABS plastic enclosure for extended LF performance down to 50Hz.
- 100W power handling provides for 112dB maximum SPL.
- 100V transformer is provided for constant voltage systems.

#### SPECIFICATIONS :

|                      |                                                                                     |
|----------------------|-------------------------------------------------------------------------------------|
| Power Handling       | 100W RMS / 150W Max.                                                                |
| Nominal Impedance    | 8Ohm                                                                                |
| Power Taps           | 60/30/15W                                                                           |
| Frequency Response   | 50-20,000Hz                                                                         |
| SPL at 1kHz (1W/1m)  | 90dB                                                                                |
| Max SPL              | 112dB                                                                               |
| Coverage Angle (HxV) | 90 deg × 90 deg                                                                     |
| LF Speaker           | 203mm (8.0")                                                                        |
| HF Tweeter           | 25mm (1.0")                                                                         |
| Connectors           | Removable locking 4-pin connector (Euroblock) for connection to additional speakers |
| Dimensions           | W250 × H390 × D236mm                                                                |
| Weight               | 6.15kg                                                                              |
